Traffic vs Revenue by Channel

FINDING

- Mobile conversion: Desktop converts at 8.50% vs 3.09% on mobile
- Channel concentration: gsearch nonbrand drives 59.8% of sessions and 58.2% of orders
- Landing pages: /lander-5 converts at 10.2% vs 3.4% for /lander-3
- Refund concentration: Mr. Fuzzy is 62.5% of revenue but 72.46% of refunds ($61,838)
- Weak pilot: socialbook pilot converts at 1.08% (55 orders from 5,095 sessions)

IMPACT

- Mobile gap: 5.41 pp. Lifting mobile to 4.5% ≈ +2,055 orders ≈ $123K (illustrative, $59.99 AOV)
- Channel dependency: $1.12M on one channel. +0.5 pp conversion ≈ 1,400 orders ≈ $85K (illustrative)
- Landing pages: 6.8 pp gap, best vs worst
- Refunds: $85.3K (4.40% of gross revenue). Matching Forever Love Bear's 2.23% rate saves ≈ $35K (illustrative)
- Social pilot: lowest-converting channel, no spend data, so ROI can't be calculated

ACTION

- Improve mobile conversion: Audit mobile checkout and A/B test a simpler flow
- Reduce channel dependency: Optimize gsearch nonbrand, and grow the higher-converting brand and direct channels
- Standardize landing pages: Compare pages over the same dates, then route traffic to the winner
- Reduce refunds: Root-cause refunds for Mr. Fuzzy first. Sugar Panda has the highest rate (6.04%)
- Rework the social pilot: Pause or retest with a clear hypothesis

Note:

Insights cover 19 Mar 2012–19 Mar 2015. Both 2012 and 2015 are partial years.
